DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 12 June 2006 has been entered.

Information Disclosure Statement

2. The information disclosure statements (IDS) submitted on 12 June 2006 and 23 June 2006 was filed after the mailing date of the Notice of Allowance on 02 June 2006. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Allowable Subject Matter

3. Claims 1-16 are allowed.

4. The following is an examiner's statement of reasons for allowance: Since applicant has overcome the objections recited in the *Ex Parte Quayle* action mailed 28 February 2006, the instant application is now in condition for allowance. The reasons given in that office action are repeated in this office action.

Art Unit: 2879

5. Regarding independent claim 1, the prior art of record neither shows or suggests an organic electroluminescent device comprising, in addition to other limitations of the claim, a display region including a plurality of pixel regions and a dummy pixel region, wherein second electrodes are provided on an organic electroluminescent layer so that a second electrode is present in each of the plurality of pixel regions and the dummy pixel region, respectively, and the second electrodes in each of the plurality of pixel regions are respectively connected to first connection electrodes. Due to their dependency upon independent claim 1, claims 2-16 are also allowable.

6. The subject electrode structure described above is provided for improving the aperture ratio, display quality, and production yield of the organic electroluminescent device. The design is new and unique to the art.

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
